EPISCOPAL SCHOOL

CONFIDENCE | COMPASSION | CHARACTER

Tennis Basics

K – 8th Grade: Mondays, September 28, October 5, 19, 26, November 2, 9 (3:45 – 4:45)
\$200 for six sessions

TGA has developed a program curriculum designed to develop the next generation of young players' skills and passion for the game. We teach and develop the fundamentals: grip, forehand, backhand, volley, and serve. We use equipment and courts tailored to the size and ability of young players making it easier for kids to hold, swing, and connect with the ball. This club is perfect for beginners excited to learn the basics of tennis in a fun and supportive setting! Through engaging games and age-appropriate drills, students will work on fundamental skills like hand-eye coordination, basic strokes, and footwork. Our friendly coaches focus on building confidence, teamwork, and a love for the game. Ideal for Kindergarten through 8th grade students, this program is all about having fun while learning the foundations of tennis!

ENRICHMENT OVERVIEW

STEAM

SCIENCE | TECHNOLOGY |

ENGINEERING | ARTS | MATH

TGA is leading the way in combining athletics and academics through incorporating STEAM into our programs. We aim to make learning fun and increase comprehension of concepts such as gravity, force, compression, and geometry with activities that explore science, technology, engineering, arts, and math through the lens of sports.

Please register by Thursday, September 24th @ 6 PM via our website: <https://stmartinsmd.org/community/clubs-activities/>
