

HOW TO USE THIS FORM

The documented tests should be the blood lead tests at 12 months and 24 months of age. Two test dates and results are required if the first test was done prior to 24 months of age. If the first test is done after 24 months of age, one test date with result is required. The child's primary health care provider may record the test dates and results directly on this form and certify them by signing or stamping the signature section. A school health professional or designee may transcribe onto this form and certify test dates from any other record that has the authentication of a medical provider, health department, or school. All forms are kept on file with the child's school health record.

Lead Risk Assessment Questionnaire Screening Questions:

- Lives in or regularly visits a house/building built before 1978 with peeling or chipping paint, recent/ongoing renovation or remodeling?
- Ever lived outside the United States or recently arrived from a foreign country?
- Sibling, housemate/playmate being followed or treated for lead poisoning?
- If born before 1/1/2015, lives in a 2004 "at risk" zip code?
- Frequently puts things in his/her mouth such as toys, jewelry, or keys, eats non-food items (pica)?
- Contact with an adult whose job or hobby involves exposure to lead?
- Lives near an active lead smelter, battery recycling plant, other lead-related industry, or road where soil and dust may be contaminated with lead?
- Uses products from other countries such as health remedies, spices, or food, or store or serve food in leaded crystal, pottery or pewter.
